Connecting across sectors

Our unique cross-sector network brings together **business, non-profit, education** and **public sector** organisations to share resources, ideas, information, space and learning.

We use our **cross-sector knowledge** and insights to ensure we connect businesses with Team Challenge opportunities which **resonate with their ESG goals** and local links.

Why use our Team Challenges?

Local Impact

We're committed to real impact at a local level. We work with over 85 locally based non-profits. When you use Connect Reading, you'll be **making a real local impact.**

Connected

In addition to our relationships in Reading's voluntary & community sector, we also work with the public sector. This allows **a more strategic view of local needs and issues.**

Equitably Priced

The size of a company shouldn't prevent them from doing good! Our sliding scale for non-member businesses (members get them for free!) demonstrates our **commitment to equity.**
